

School Rule Development Committee Established List of Outstanding Topics Not Addressed by Workgroups

- (1) Development of Functional Performance Standards (11 votes)
 - (a) Requirement for protecting HVAC & duct work construction materials from moisture damage and mold growth during school facility construction and remodeling.
 - (b) Linking requirements in SBOH rules with standards established by the State Building Code Council, specifically in regard to requiring lead-free (<0.25%) fixtures, piping and solder.
 - (c) Constructability review.
- (2) Roles & Responsibilities (R&Rs) for Local Health Jurisdictions (LHJs) (10 votes)
 - (a) What should the scope of their R&Rs be?
 - (b) How should LHJ school environmental health & safety programs (EH&S) be funded?
 - (c) How much oversight of school district level EH&S programs do they need to have?
 - (d) How should the frequency of LHJ health inspections of schools be addressed?
 - (e) How should LHJs interact with other entities in the provision & assurance of EH&S in schools?
 - (f) Use of guidance documents by LHJs.
- (3) School Environmental Health & Safety Rules / Enforcement Mechanisms & Provisions (9 votes)
 - (a) Who? How? When?
 - (b) Inspections by LHJs?
 - (c) Oversight by DOH?
 - (d) Appeals Pathway
- (4) Roles & Responsibilities (R&Rs) for Department of Health (DOH) (8 votes)
 - (a) What should the scope of their R&Rs be?
 - (b) What is the scope of their authority?
 - (i) To be able to investigate incidents in order to learn and develop training?
 - (ii) For establishing a reporting mechanism and requirement for injuries & accidents?
 - (iii) For DOH inspection of school facilities?
 - (c) How should DOH interact with other entities in the provision & assurance of EH&S in schools?
 - (d) Encourage public involvement in guidance development.
- (5) Statewide Capacity for Design Review & Construction Oversight (8 votes)
 - (a) Local capacity for school project plan review & construction oversight
 - (i) Local Health Jurisdiction
 - (ii) Local Planning & Building Departments
 - (iii) Local school districts
 - (b) Plan review requirements & specifications / providing clear requirements regarding timing and content of plan reviews, preoccupancy inspections, and routine inspections.
- (6) Extending the Scope of the SBOH Rules for EH&S Beyond K-12 (7 votes)
 - (a) Pre-schools
 - (b) Skill centers
 - (c) Alternative schools
 - (d) Other school-sponsored settings
 - (e) Tutoring centers
 - (f) Home school centers
- (7) Rule-related "Parking Lot" Items (4 votes)
 - (a) List of key terms & definitions.
 - (b) Requirement for designated areas meeting the specific design needs of health rooms in new facility construction projects.
 - (c) No carpeting in school cafeterias.
- (8) Roles & Responsibilities (R&Rs) for School Districts & Administrators (3 votes)
 - (a) What should the scope of their R&Rs be?
 - (b) How should school district level environmental health & safety programs (EH&S) be funded?
 - (c) How should school districts and administrators interact with other entities in the provision & assurance of EH&S in schools?
